### Question-2:

**Create a docker file for the jobportal application and deploy it in docker application.**

## 1) Creating a docker file for the jobportal application

The screenshot shows a Notepad++ window titled "C:\Users\gabri\Desktop\job\_gabri\Dockertile - Notepad++". The menu bar includes File, Edit, Search, View, Encoding, Language, Settings, Tools, Macro, Run, Plugins, Window, and Help. The toolbar contains various icons for file operations and editing.
